October 2012

**HUSUM
Wind**

Serena was present at the **Husum Wind Energy Exhibition**, in Germany. **Husum**

is the major one and more successful international event of the industry of the **wind power**. In this exhibition there's also a highest level conference

Wind power, engine of development for Oaxaca.

On Wednesday September 26th was closed the **II Renewable Energies 2012 International Forum** of. There was exposed that the high potential of wind power generation which **Oaxaca** possesses, must take advantage to the maximum in a frame of legality and ecosystems respect, for representing the main engine of development, wellness and benefit for the state.

Renewable energies and the **energy efficiency** can avoid the oil perforations and the nuclear power, as is shown on the **'Report (R)evolution Energetic 2012: An energetic world sustainable scene'**, that has been elaborated by **Greenpeace**, together with the **European Renewable Energy Council (EREC)** and the **Global Wind Energy Council (GWEC)**.

We are pleased to inform you that in September were carried out the audits of **quality follow-up (ISO 9001)** and of **Environment (ISO 14001)** of all the **Grupo Inerzia** companies, with a very satisfactory result.

In addition, in October there is planned the **Prevention one (OHSAS 18001)**, and we wait the same result.

serena
Wind professionals

In September, some technical **Serena's** workers moved to **Oaxaca, Mexico**. They carried out **maintenance operations** on different wind farms of this zone.

Conapro developed in **APM Prevention** an informative day focus in his clients: **"What must I know about every kind of PPE?"** The day took place on Wednesday, the 19th of September, in **APM's** facilities, being directed by **Evaristo Eslava**, Commercial Chief of **Conapro**.
