The CEO of Apple, Tim Cook said at a technology conference in San Francisco, the plant will power its new center in Silicon Valley and other offices and 52 stores in California.

Apple has partnered with First Solar, a supplier of solar equipment, to build the plant in Monterrey County, who also operate a data center in California that already uses solar energy. First Solar is specialized in manufacturing of solar panels and plant construction.

January **2015** edition

## URUGUAY & NEM

We started 2015 with new projects in Latin America. This time your technical asitencia of NEM went to URUGUAY for **Tooling Inspection lifting** a wind farm located in Zona de Peralta, Department Tacuaremó.

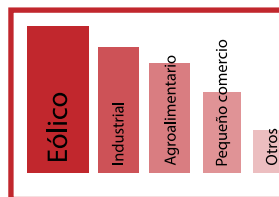

**CONAPRO**

*Invest in Quality*

During the past 2014 Conapro and specifically its Department of Education, focused his activity in investing in the Quality of Education Teaching, materializing in:

- Formative nuetro diversification catalog; GWO and Confined Spaces.
- Large facilities with new simulators; elevator fixed guides and confined spaces inclined platform.
- Risk assessment and evaluation for courses "as" in the customer premises.

Throughout the month of January (being a month with few working weeks) were given training to more than 50 persons 5 sectors, calling our formations with outstanding notes. The satisfaction of our customers helps us and motivates nuetra continue improving service quality.

If you do not know yet our catalog Formations in height, **I consult it here!**

We also offer service management bonuses, which will reduce the cost of your training, we inform without commitment: **T.948.13.18.78**
